1 October 2020

Dear Prime Minister,

CC: Home Secretary; Secretary of State for Housing, Communities and Local Government; First Minister of Scotland; First Minister of Wales

**RE: Reverse the decision to evict people with No Recourse to Public Funds (NRPF) into homelessness**

We write with deep concern as a collective of migrants' rights organisations and individuals affected by the decision to re-commence evictions of people who live in asylum accommodation.

Evictions into homelessness at any time are unacceptable. At this time, as the UK [returns to Covid-19 alert level 4](#), the risks to people affected by this decision are unacceptably high. It has been clearly evidenced that people from Black and Ethnic Minority Communities, including people facing eviction from asylum accommodation, face a significantly higher risk of poor clinical outcomes if exposed to the virus<sup>1</sup>.

**We therefore ask that you immediately reverse this decision so as to prevent people who have been refused asylum becoming homeless and destitute, and to protect the health and safety of both individuals and the general public.**

In March 2020, the UK Government and devolved governments took sensible decisions that protected people seeking asylum, people at risk of homelessness with No Recourse to Public Funds (NRPF) and wider public health. These measures included the suspension of evictions from asylum accommodation and the provision of accommodation to everyone experiencing homelessness, regardless of their immigration status, through the 'Everyone In' directive and equivalent initiatives by devolved governments. This protected many people when they needed it most and was a welcome, life-saving measure to individual and public safety. However, since the 15th September, people who have been refused asylum in England have begun to receive notices to leave their accommodation, with plans to restart evictions in Scotland, Wales and Northern Ireland at a later date.

As these temporary initiatives come to an end, the likelihood of increased destitution and homelessness amongst those who are most vulnerable is heightened. This can and must be prevented. We support the UK Government's aim to eradicate rough sleeping in this Parliament; however it is clear that this cannot be achieved if evictions from asylum accommodation proceed in this way, and without an end to NRPF conditions which stop Local Authorities from being able to provide support to everyone who needs it.

Thousands of people seeking asylum who now face eviction typically have no source of alternative income or savings. Once made homeless by the inhumane NRPF conditions, they will rely on charities or local people in the communities for support. Charities supporting

---

<sup>1</sup> For reference, see: [Migration Exchange COVID-19 Impact Assessment Framework](#) and [Local Authority Responses to people with NRPF during the pandemic](#).

people who are experiencing homelessness have had to radically rethink how they provide safe accommodation, and local conditions mean that accommodation providers have significantly less capacity and serious concerns about their ability to support those most in need. Moreover, the independent legal advice that people who have been refused asylum need to consider their options to challenge the decision and/or access assisted voluntary return is either unavailable or acutely oversubscribed.

**On the basis of this information, we ask that you:**

- 1. Immediately halt the evictions of people who have been refused asylum.**
- 2. Place a fully funded duty on Local Authorities to accommodate people with NRPF conditions.**

**We are eager to speak with you and your Ministers to discuss in more depth the issues we have raised.**

**Please do not hesitate to contact us.**

**Yours sincerely,**

Asylum Matters (Paul Hook, Project Director)  
Migrants' Rights Network (Dorian Leatham, Interim CEO)  
NACCOM (Renaë Mann, Director)
