

10 August 2020

Dear Home Secretary,

Re: End no recourse to public funds (NRPF) for Tier 4 international students

We are a collective of migrant rights, anti-racist, student groups and unions concerned about the treatment of Tier 4 students during the COVID-19 lockdown. Unis Resist Border Controls (URBC) a grassroots campaign made up of migrant university lecturers, students and activists opposed to the hostile environment policy and border controls as practiced inside UK higher education was concerned about no recourse to public funds (NRPF) for Tier 4 students during the start of the COVID lockdown.

Since the beginning of May 2020, URBC has provided a [mutual aid grant](#) for Tier 4 international students left stranded and without funds as a result of NRPF. They have funded over 100 Tier 4 international students and given close to £6,000 in funds¹. Many Tier 4 students are on a wait-list for when URBC has raised enough funds to distribute. None of us not think that it should be the sole responsibility of grassroots campaigns and mutual aid groups to provide care and safety to Tier 4 international students at this critical time. That responsibility is squarely one that the government should be taking now.

Many self-funded Tier 4 students are having problems accessing funds for their maintenance, because their families are in lockdown in their respective countries. As a result, their families cannot send them money to pay for food, rent and any other miscellaneous expenses. Some of these Tier 4 students have informed us that their parents have lost their jobs as a result of the COVID lockdown in their respective countries. We believe that as COVID lockdowns continue to occur in other parts of the world, there will be many Tier 4 students unable to sustain themselves here in the UK simply because their families are unable to work and provide them with funds.

Tier 4 students that we are in contact with have received minimal to no support from their UK universities, with some only receiving a one off hardship payment that does not adequately

¹ Some funds are not reflected on our GoFundMe as they were given to URBC privately by individuals and many UCU branch chapters.

cover any of their costs. We believe this to be a more pervasive problem that all Tier 4 students are experiencing, compounded by the fact that Tier 4 students have no recourse to public funds (NRPF). This means that Tier 4 students are unable to get universal credit, housing support and a myriad of other funds that can act as a life-line to prevent them from becoming destitute during these difficult circumstances.

Even more shocking is that the Tier 4 students who have contacted us have indicated that they are starving and surviving on one meal a day. Many of these students have explained to URBC that the uncertainty of their situation has made them severely depressed. Some students have indicated that they have had suicidal thoughts during lockdown because of the dire financial situation that they are experiencing and the inability to afford basic necessities. We conducted a preliminary study that we've done in cooperation with the Migrants' Rights Network (MRN). The study found that out of 124 Tier 4 international students responses, 56% indicated that as a result of the COVID-19 lockdown, that they are either destitute or at risk of being destitute, meaning that they do not have enough of an income to survive or that their accommodation is at risk. This sobering statistic points to the harm that NRPF is impacting upon Tier 4 students, particularly those who are coming from working class and/or lower middle class backgrounds.

It is extremely disappointing that even the Prime Minister is both woefully unaware about NRPF and seemingly uninterested in reversing the harmful impact that it is causing to migrants living in the UK, particularly so during the COVID lockdown.

The damage that your immigration policy is causing to what used to be considered a world class education system, is reflected in the [latest QS rankings](#), which showed that nearly three-quarters of UK universities slipped in ranking. How can you attract the best and brightest from around the world when the hostile environment policy and NRPF are creating many problems for international non-EEA students studying in the UK? And as we have illustrated, the COVID lockdown in the UK starkly shows that there are poor support structures in place for Tier 4 students, making them disproportionately vulnerable to destitution.

We demand that the government end NRPF provisions for all migrants but particularly so for Tier 4 international students. The world is watching how the UK treats its Tier 4 students. If you neglect them in this critical moment, you will be doing irreversible damage that will further tarnish what remains of UK higher education.

Yours sincerely

The undersigned:
