

Tell your MP: We're Not Strangers

The UK's immigration regime - and the stories told to defend it - are fuelling an unbroken cycle of harm.

Climate of Fear

88% are more anxious because of how migrants are portrayed by politicians and media

Hostility, Security Risk

85% worry about racism & discrimination linked to anti-immigration narratives

Economic & Social Devaluation

78% feel their 'contributions' to the UK are not valued

Collapse in Institutional Trust

66% report low trust in British institutions to protect rights

Your move.

I am a constituent from _____ (postcode).

I am writing because the worsening immigration climate is causing real and measurable harm to people in our community.

This concerns me because:

And this should concern you, as our elected representative.

A society that makes people feel unwelcome or unsafe does not just harm migrants, it harms all of us. We need leadership champions the rights of all migrants, including refugees, instead of narratives that foster harm, anxiety and exclusion.

As my MP, I ask you to publicly denounce the Home Secretary's immigration policies, to challenge the Minister in writing about the harm caused to your constituents, and to raise an Urgent Question in Parliament.
